ARSCO Custom Steel Cabinets

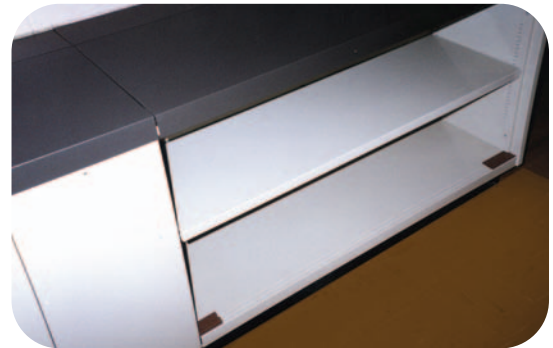

Let ARSCO build YOU the perfect steel cabinets!

We manufacture to any dimensions, or shape, and any capacity. We can make cabinets to fit unusual spaces, underneath counters, even dual access cabinets and cabinets with vents, grills or louvers. Most cabinets can be crafted as either free-standing or wall-mounted.

For more than 70 years, ARSCO has custom-made industrial steel cabinets for industry, laboratories, education, hospitals, libraries and warehouses. We provide more steel cabinets and steel storage cabinets for schools than any manufacturer, and often work with leading contractors on school programs.

Homeowners choose an ARSCO steel wall cabinet or steel tool storage cabinet because they combine durability and long-term corrosion protection with exceptional functionality and good looks!

Powder coating: the "extra mile", without the extra price! Powder coating is the most durable and long-lasting paint finish. And ARSCO is the only steel cabinets manufacturer that powder-coats all its steel cabinets! Six handsome powder coat colors are standard; unlimited custom colors are available. Formica tops, and other options, including shelving and bins, and heavy-duty casters, are available.
